City I&T Grand Challenge Competition

THEME: INNOVATING FOR HONG KONG'S NEW NORMAL

The COVID-19 pandemic has transformed the way we live, work and learn. Adapting to the new normal demands new innovation. This year, we invite anyone and everyone to come up with ideas to make Hong Kong a more sustainable, connected and efficient city. Learn more about the sub-themes and scenarios and see how you can get involved!

Environmental Sustainability

We are looking for sustainable and eco-friendly ideas that can drive behavioural change and help minimise our environmental footprint in the new normal. Find out more!

Social Connectivity

We are looking for creative ideas that can help people feel part of a connected society, wherever they may be. Find out more!

University/
Tertiary Institute
